

McLOUIS

McLous, just starring

McLous is the brand for those who are looking for a comfortable, modern and attractive design motorhome that makes them feel special. Anticipating trends, dictating fashion: this is one of the main goals of McLous.

The alchemy between Italian style, living comfort and design ability gives rise to highly distinctive motorhomes, where the stylistic signature of the McLous brand is always clearly recognisable.

The history

McLous was born in 1999 when the number of people approaching the world of plein-air was on the rise. Specialised in the production of motorhomes, semi-motorhomes and overcabs, McLous interprets Italian taste, attentive to the dictates of fashion and interior design in terms of colours, materials, shapes.

It presents a wide range of products, varied layouts to precisely meet the needs, tastes and preferences of every traveller. McLous has accompanied thousands of motorhome owners on their way to maturity, proving to be an excellent travel companion and to be able to respond promptly to developments in travelling tourism.

Close to you, everywhere

The McLous sales network today consists of over 200 qualified distribution partners, spread throughout Europe. Through pre- and after-sales services, local staff and on-site distribution agencies, McLous is able to satisfy even the most demanding customers.

Some of the features shown do not correspond to the final features of the vehicle for the current season.

THE PROMISES FROM **McLOUIS**

- ★ **A wide-ranging and dynamic offer** whose innovation and research activities allow to respond timely to the evolution of travelling tourism and the needs of every motorhome owner, from large families to couples
- ★ Volumes, furnishing and accessories are rationally designed to travel and live aboard your McLouis with **maximum comfort**
- ★ McLouis interprets and enhances **Italian taste** through the design of environments, materials and shapes, taking care of every little detail. The McLouis **style** is unmistakable
- ★ Always **fashionable**: McLouis environments - modern and elegant - keep up with the interior design new trends
- ★ The **reliability** of a well built vehicle with a **10-year guarantee against infiltration**, high-performance materials and state-of-the-art manufacturing processes

The promise of reliability 10-year guarantee against infiltration*

McLouis branded quality lasts over time.

*Carry out regular maintenance at the authorised McLouis network and the tests provided for the control of infiltration during the service coupons as per the specific deadline specified in the warranty booklet. For further information on conditions and terms, please contact the authorised sales network.

SERIES 200

FOR A STYLISH DEBUT IN THE WORLD OF PLEIN AIR

The 200 series, designed for those taking their first steps into the world of travelling tourism, offers a wide range of products to meet the needs of every motorhome owner: 5 Glamys overcabs, 10 Mc4 low-profiles also available with the option of an electrically operated elevating bed and 2 Nevis motorhomes.

Practical, manoeuvrable and functional, the 200 series vehicles reflect the unmistakable McLouis style and are characterized by superior construction technology, a guarantee of safety and durability.

The promise of the **200** SERIES

STYLE

Style and elegance on board

The interiors of the 200 series are characterized by natural colours, from brown to beige, colour contrasts for a modern and elegant design environment.

The polished laminates of the doors give a touch of glamour to the environment. The attention to detail is fundamental for a balanced result: the fabrics and quilted panels in imitation leather are carefully chosen and matched with the furnishing elements.

The LED profiles, the lighting underneath the wall units, the chrome edges of the table and the tops create a pleasant play of light that enhances the interiors.

COMFORT

Cosy, inviting, comfortable spaces

The environments in the 200 series are built for optimum living comfort. The interior uses natural light and can always be well ventilated thanks to the windows and portlights above the dinette area and in the middle and rear areas of the vehicle.

From the living area to the sleeping area, McLouis designers have created a welcoming and comfortable space.

The spacious and inviting dinette is the ideal place to plan all the details of the next stage of your journey; the ergonomic, softly curved seats are ideal for relaxing while the LED lighting creates the right atmosphere at all times, according to your preferences.

In the sleeping area, the beds offer comfortable wooden slats and are spacious, to help you get a good night's rest.

DYNAMICS

For all tastes

The 200 series offers a wide choice of layouts and types with lengths ranging from 5.99 metres for the very compact Mc4 231 up to 7.45 metres for the larger low-profile models and motorhomes: flexible living solutions to offer everyone their ideal motorhome.

From the Glamys overcabs, which offer beds for up to 8 people and are perfect for larger families, to the Mc4 low-profiles, designed for couples, to the motorhomes for those who want maximum space and comfort for their holidays.

The numerous types of beds, dinette configurations and original interior design allow everyone to find a vehicle tailored to their travel needs.

Mc4 262

LIVING AREA

Harmony, design, functionality

The 200 series offers trendy solutions for the living area, without losing sight of comfort and functionality, both on the move and on arrival.

Glamys 265

LIVING AREA

- Fabrics and imitation leather panels
- Panel with quilted fabric under elevating bed
- Two-tone wall unit doors in cream and brown colours
- LED profiles for dinette seats
- Dinette with swivel seats that integrate into the living area*
- Polished laminate table with chrome profile
- Folding top table in face-to-face models, central sliding table or fixed table
- Practical button on the floor to lower the table in the night conversion **
- Roman blinds

Mc4 279

* Swivel seats not available in Glamys 220, 222 and 226.
 ** In models with standard dinette bed conversion.

Mc4 279

Glamys 220

KITCHEN

Enjoy your meal!

With the 200 series, cooking is a pleasure! The two-burner cooking hob allows optimal use of space and free space on the kitchen top for the preparation of dishes or simply to place cutting boards, containers and other accessories.

Space and rationality: you can store all your dishes and crockery in generously sized wall units with chrome handle for opening. The shelving unit is equipped with a double shelf to organize the stowage in a practical and functional way.

Nevis 273

Mc4 265

Mc4 262

KITCHEN

- Two-burner hob with large working space
- Drawers with push-lock opening and soft-closing system
- Spacious wall unit with shelf for pantry and stowage
- 135 litre refrigerator with separate freezer and outer bottle drawer

SLEEPING AREA

Perfect balance between space and comfort.

Nevis 273

In designing the sleeping area, McLouis designers have managed to match freedom of movement and space to sleep well: it's easy to move around the beds without encountering any obstacles.

The room is comfortable and bright thanks to the large windows and the rear skylight. The spotlights at the sides of the bed allow you to relax with a good book before sleeping.

Mc4 262

SLEEPING AREA

- Windows and skylights for better lighting
- Real bed bases with slats for maximum comfort
- Breathable mattresses
- Large wardrobes and wall units for clothes and accessories
- Pleated door separating the living area from the sleeping area*
- Maxi central beds 190x150 cm· Central bed with retractable bed base in Mc4 262 model
- Electric bed height adjustment on models with central bed (except Mc4 262 with manual handling)
- Manual bed height adjustment on models with transversal bed ** and on Mc4 262
- Conversion of twin beds into a maxi double bed
- In models with twin beds, elevating bed bases with convenient piston mechanism
- Quilted imitation leather panel at the head of the bed

* Only available for some models
 ** Not available in Mc4 231 model

**BATHROOM**

A wellness area to pamper yourself

In the elegant wooden toilet you can take care of yourself, as if you were at home. You can prepare to go out in front of the large mirror, illuminated by spotlights, with a handy top with toothbrush holder and soap holder.

Mc4 262

BATHROOM

- Large mirror with lighting
- Opaque double glazed window
- Spacious shower
- Independent shower with rigid door or integrated with rigid partition doors
- Stowage wall units and large shelves

Mc4 265

Mc4 262

EXTERIORS

- XL entrance door, with mosquito net*
- Wide integrated step
- Double glazed windows, fly screen and blind (window in the bathroom without blind and flyscreen)
- BUS-type rear-view mirrors on Nevis motorhomes
- XXL garage with load capacity up to 300 kg and double access. Illuminated and heated
- LED external light
- 10-year guarantee against infiltration

*XL door not available in Glamys 222

CHASSIS

- Fiat Ducato 2.2 MJ 140 HP, Citroën Jumper 2.2 140 HP, emission class EURO 6D or Ford Transit 2,0 TDI 130 CH
- Manual climate control
- Driver and passenger airbags
- Cruise control
- Start & Stop
- ESC
- Cab swivel seats*
- Seat fabric coordinated with the upholstery on Nevis motorhomes
- 15" steel wheel rims on Fiat and Citroën, 16" steel wheel rims (available on Ford)
- DRL LEDs on Nevis motorhomes
- Leather steering wheel and gearbox (available on Ford)
- Bluetooth radio with steering wheel controls (available on Ford)

ON-BOARD TECHNOLOGY

- LED interior lighting
- LED lights under the wall units
- LED dot on the handle at the entrance
- USB sockets in the living area
- Gas heating COMBI 4
- Heating in the overcab area

* Swivel seats not available in Glamys 220, 222 and 226

Some of the features shown do not correspond to the final features of the vehicle for the current season.

SERIES
800

**THE HIGHEST EXPRESSION
OF MCLOUIS STYLE**

Designed to satisfy even the most demanding customers with its exceptional living comfort, high-quality interior design and well-thought-out details, the 800 series consists of 8 Mc4 low-profile models, also available with the option of an electrically operated elevating bed, and 5 Nevis motorhomes.

Thanks to the generous standard equipment and the excellent on-board technology, you can enjoy maximum well-being both on the road and during your stay, without regretting comforts.

The promise of the **800** SERIES

STYLE

Harmonious design, high quality

The interiors of the 800 series are featured by the dark colour of the wood with contrasting “glossy cream” surfaces: a refined colour play that makes the room look high-quality and exclusive.

The high-quality premium upholstery is enhanced by quilted sections in natural shades of cream, beige and hazelnut - elegant colours that are easy to match with your favourite accessories and furnishings.

To protect your privacy and modulate the light, the 800 series offers Roman blinds, a chic and modern solution that tastefully matches the style of the interiors.

COMFORT

Softness that seduces

In the bright living space, the 800 series takes care of your well-being with its upholstery and soft, ergonomically designed, high-comfort seats, ideal for enjoying a snack or relaxing in front of the TV.

In the sleeping area McLouis comfort is at its best: here you can rest and sleep relaxed thanks to the extra-comfortable mattress, the slatted base and the generously sized beds.

The soft-touch coating on the walls and ceiling of the room promotes sleep and contributes to a soft, inviting environment with excellent thermal and acoustic insulation.

DYNAMICS

Flexibility for all your needs

The 800 series range includes both low-profile models and motorhomes with lengths varying from 6.99 metres to 7.45 metres: generous volumes, plenty of space, to make your holiday comfortable.

A great deal of attention is paid to functionality and practical everyday use: the Mc4 865 model offers a variable volume toilet: thanks to the rotating washbasin wall, you can modulate the space according to your needs and have a larger toilet or a larger shower.

In addition to the bed height adjustment - which is standard on the entire McLouis range - the Mc4 862 and Nevis 862 models offer a retractable bed base for the central bed as standard: by moving the bed base backwards, you gain space to move freely around the bed during the day.

LIVING AREA

The details that make all the difference

The interiors of the 800 series combine the elegance of natural colours with rich stylish details that make the environment precious and exclusive.

Nevis 870

Mc4 873

LIVING AREA

- Large windows and portlight
- Wide choice of upholstery fabrics
- Seat covers coordinated with the upholstery
- Soft-touch coating on ceiling
- Dark wood interiors and "glossy cream" contrasting surfaces
- LED profiles
- Dinette with swivel seats that integrate into the living area

Mc4 881

Soft-touch coating on ceiling

Nevis 870

- Polished laminate table with wooden profile
- Elegant chromium-plated leg, replaced by a height-adjustable leg when converting the dinette into a bed
- Folding top table in face-to-face models and central table for other layouts. Both are sliding and 360° rotating
- Practical button on the floor to lower the table in the night conversion *
- TV holder for monitors up to 32"

* In models with dinette bed conversion as standard

KITCHEN

Wear the chef's clothes

The 800 series kitchen is ideal for testing your skills, thanks to the three-burner hob, stainless steel sink and large work surfaces.

The kitchen panel is equipped with spice rack and convenient hooks, so you always have everything you need at hand.

Stowage is particularly important in the kitchen: thanks to the wall units - with double shelves - large drawers and baskets you can organize the pantry and accessories in a rational way.

Nevis 881

KITCHEN

- Three-burner hob in line with glass cover
- Drawers with handle
- Kitchen panel equipped with spice rack and useful hooks
- Folding surface, handy additional laying surface
- Spacious wall unit with shelf for pantry and stowage
- 145 l double door refrigerator with separate freezer in vehicles over 7 metres

SLEEPING AREA

Room for dreaming

The bedroom is designed to offer maximum comfort during the night thanks to the large beds, equipped with wooden slatted bases and soft mattresses.

Nevis 881

SLEEPING AREA

- Large windows and portlights for better lighting
- Real bed bases with slats for maximum comfort
- Extra-comfortable ergonomic mattresses
- Soft-touch coating on ceiling and interior walls
- Large wardrobes and wall units for clothes and accessories
- Rigid door separating the living area from the sleeping area*
- Central beds, 150-cm wide
- Central bed with retractable bed base in Mc4 862 and Nevis 862 models
- Conversion of twin beds into a maxi double bed
- Electric bed height adjustment on models with central bed (except Mc4 862 and Nevis 862 with manual handling). Manual bed height adjustment on models Mc4 860, Mc4 862 and Nevis 862
- Convenient storage pocket at the foot of the bed

* Mc4 860 excluded

Soft-touch coating on ceiling and interior walls

Nevis 870

BATHROOM

Where well-being and style meet

To have everything you need for your daily well-being routine at hand, the toilet - in wood - is equipped with a large wall mirror illuminated by spotlights, a large shelf with toothbrush holder and soap holder.

Mc4 881

BATHROOM

- Large mirror with lighting
- Opaque double glazed window
- Freestanding shower with rigid door or integrated with rigid separating doors or variable volume bathroom (in the Mc4 865 model)
- Stowage wall units and large shelves

Mc4 865

Nevis 873

CONSTRUCTION TECHNOLOGY

McLous, made to last

Construction technologies, from high performance materials to state-of-the-art production processes.

The body of McLous motorhomes is manufactured in specialized production departments through high-precision industrial processes that guarantee the highest quality standards.

The construction technology

This technology stands out for the maximum waterproofing and acoustic insulation of the living unit, ensuring better insulation and greater protection against infiltration.

The use of new materials with high insulating performance, such as bicomposite resins, has made it possible to reduce the weight of the body and make it more solid at the same time. More durable, less subject to wear, easier to repair and maintain: the structure of McLous motorhomes is more resistant to torsion, offering greater stability to the vehicle.

The body under the microscope

Roof formed by a double sheet of fiberglass, external and internal, PVC frame and waterproof plastic inserts, thickness 30 cm.

Wall with double sheet of fiberglass, external and internal, PVC frame and waterproof plastic inserts, thickness 30 cm.

Floor 54-cm thick, with non-slip, abrasion-resistant PVC lining, consisting of an external fiberglass sheet and internal multilayer, PVC frame and waterproof plastic inserts.

NOT JUST INSULATION: VENTILATION IS IMPORTANT TOO!

A well built motorhome is not only well insulated from the outside but also well ventilated inside for a healthy, comfortable environment with excellent air quality.

McLous designers have studied the air conditioning and air circulation inside the vehicles with the aim of standardizing the temperature and avoiding any condensation.

Wall units installed leaving a space from the wall of the motorhome, so that the air is evenly distributed and any condensation or mould is prevented.

Specific opening for the free circulation of air inside the wall units.

Anti-condensation panels spaced from the wall in the living and sleeping areas for air and heat circulation.

Overcab heated through special vents.

Mattresses with lower cover in technical, quilted breathable fabric. Top and sides made of quilted polyester.

Slats in all beds that let air pass between the base and the mattress.

GARAGE AND STOWAGE

Space for your **PASSIONS**

With McLouis the garage and the external stowage compartments allow you to take everything you need for your holiday with you, without having to give up anything.

THE GARAGE

THE STRUCTURE

The garage has a lower fiberglass cover to protect the compartment from external moisture and uneven road surfaces, such as gravel.

The interior is waterproof plastic, 30 mm thick, with structural strips for greater rigidity and tightness. The floor is made of linoleum to protect the loading surface from wear and make it easier to clean and maintain.

ILLUMINATED AND HEATED

The maxi-garage is equipped with light and air vents for heating.

EASY TO LOAD

Thanks to the double access door that creates a "through" load compartment, accessible from both sides. The doors open at 180° so you can load and unload even the most bulky objects conveniently.

SAFE

The doors are equipped with a double lock.

MAXI DIMENSIONS

The load capacity is up to 300 kg (maximum technically loadable weight that affects the approved seats or the remaining total payload).

FLEXIBLE

The sliding rail bed system in the models with transverse and central beds allows you to have more space wherever you want, in your room or in the garage.

DURABLE

It is protected from humidity by anti-rain, anti-splash and anti-frost rubber seals to ensure opening even at low temperatures.

INTERIORS

The interiors of McLouis are designed to create the freedom of movement of a luxury suite. The rational organization of the spaces allows the optimal use of every corner.

WARDROBES AND WALL UNITS

All the models offer spacious wardrobes and wall units with shelves and hanger rods, where you can store all your things.

LIFTABLE BASES

With a simple mechanism you can lift the slatted bed bases and have large containers for your clothes and bed linen.

COMPARTMENTS IN THE STEPS

Inside the steps that make it easier to get into the bed, or in the compartments of the chest, we have created comfortable spaces for storing shoes and other accessories.

UPHOLSTERY

Choose your **STYLE,** customize the interiors.

The fabrics in the McLouis range are inspired by natural tones, from ivory to dove grey, from beige to hazelnut. Relaxing, elegant, easy to match colours to create the atmosphere you want on board your McLouis.

Standard **200 series** upholstery

The exclusive upholstery for the 200 series, in imitation leather with visible brown stitching, features the McLouis logo on the large, unique headrest.

800 series upholstery

The upholstery features soft, rounded shapes, neutral colours with fabric upholstery, as standard, and optional imitation leather.

TESTS AND CHECKS

Tested safety

At every stage of production, from development to the finished product, McLouis carries out tests and trials in accordance with European standards to offer high quality, safe and reliable vehicles.

The same quality standards are demanded of suppliers: for the most strategic components, a check is carried out on the incoming material and before it is used in production.

CHECKS IN PRODUCTION STAGE

Test on operation of the gas pipes.

Correct installation of the hydraulic systems.

Check on operation and correct installation of the electrical systems.

TESTS IN RESEARCH, DEVELOPMENT AND PROTOTYPING STAGE

Specific testing in climate chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures.

Performance tests on the components used. Durability of mattresses, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

Some of the features shown do not correspond to the final features of the vehicle for the current season.

TESTS ON FINISHED PRODUCT

Waterproofing tests on 100% of the vehicles produced, before delivery.

Electronic weighing of 100% of vehicles before delivery and written weight certification for end customer.

Gas system inspection by certified staff according to the German DVGW protocol.

100 statistical checks out of a percentage of the vehicles produced: aesthetic, functional, noise, assembly tests.

FIAT

Created from the continuous cooperation with manufactures, Fiat Ducato is the perfect combination of chassis and living unit. There are many presettings to facilitate the transformation, a specific electrical system and a cab designed with reinforced uprights and pre-cut roof.

Euro 6D Final
140 CV
180 CV

STANDARD EQUIPMENT

MANUAL CAB CLIMATE CONTROL

Enhanced and diffused ventilation to the entire cab

ESC ELECTRONIC STABILITY CONTROL

CROSS WIND ASSIST. Through the use of brakes, intervenes to help stabilize the vehicle through strong crosswinds, helping to keep the vehicle from drifting out of its lane

TRAILER STABILITY CONTROL SYSTEM. Detects when a trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of either torque reduction and/or individual wheel braking

POST COLLISION BRAKING SYSTEM. Intervenes in the event of an accident, automatically applying brakes to prevent secondary potential collisions

ECOPACK

Consisting of:

START AND STOP SYSTEM: for reduced fuel consumption. Automatically restarts when the accelerator pedal is touched

SMART ALTERNATOR: intelligent alternator that supplies only the power needed

ELECTRONIC FUEL PUMP: for energy saving and high fuel efficiency.

ELECTRIC POWER STEERING SYSTEM

The electric power steering system replaces hydraulic system on **whole range**.

Moreover, the new electric steering system offers:

- Power supply technology adapts steering effort to vehicle speed
- Increased steering precision
- Higher driving pleasure, while reduces effort during parking maneuvers
- Improves fuel consumption and reduce CO2 emissions thanks to the
- Adaptive energy consumption
- Keep current steering ratio
- Engine bay is freed from former hydraulic power steering specific parts.

DASHBOARD

Ducato offers a dashboard:

- Heavily renovated
- Fully Re-designed
- Featuring new Tech Contents
- Comfortable & User friendly
- New White Backlighting, extended to every single command

STEERING WHEEL AND GEAR LEVERS

The steering wheel is now a revolution for motorhomes maneuverability: New car-like design - three spoke style.

The gear lever is more ergonomic and rounded, with an elegant glossy finish.

CITROËN

The style of the Citroën Jumper models is modern and takes up the latest styles of the brand: the signature of the chevrons combined with the daytime running lights, fluid lines which are not aggressive, but that transmit safety and robustness.

Interiors are welcoming and can be configured with swivel seats to facilitate movement on board.

The engine of the Citroën Jumper is equipped with the latest SCR-AdBlue technology and complies with the most recent anti-pollution standards, thus reducing fuel consumption and CO2 emissions.

STANDARD EQUIPMENT

- Manual cab climate control
- ESP
- Cruise Control
- Double Airbag
- Electric heated door mirrors
- Height-adjustable seats with double armrest
- Chrome-plated instrument panel
- Dashboard USB socket + cup holder
- Radio preparation with DAB aerial
- Citroën chrome front grille

FORD ^{new}

Ford's clean and fuel-efficient Ecoblue 2.0 TDCi diesel engine meets the latest stringent Euro 6.2 emission standards.

Solid and reliable, it has a lightweight, high-strength boxed steel frame with integrated attachment points and lowered frame members.

The chassis is lowered for better access to the living unit; the enlarged rear track provides greater road stability and comfort.

STANDARD EQUIPMENT

- Cruise Control
- Double airbag
- ESP
- Cab seats rotatable by 180° and adjustable to 2 different positions with tilt and armrest adjustment
- 16" steel wheels rims
- Vehicle maintenance monitoring system for optimal engine performance. Provides a range of information in the instrument panel (e.g. fluid level in the AdBlue® system)
- Hill start assist. Operates in forward and reverse gear
- Control when cornering to help maintain control of the vehicle
- Leather covered steering wheel and gear lever knob
- Bluetooth radio with controls on steering wheel

2.0 TDCi 130 HP EURO 6D
2.0 TDCi 170 HP EURO 6D
