2024 RANGE

Mobilvetta GUIDELINES

Mobilvetta continues its commitment to comfort and excellence with a 2024 range that is *even more...*

01

... *premium*

New premium **technology and equipment.**

02

... *exciting*

Improved finishing, attention to details, high value materials, perfection, **consistency and equipment.**

03

... *comfortable*

Better habitability with an improved layout, more accessibility and **user comfort.**

04

... *lightweight*

Safety, technology and **optimised weight** for a customisable product designed for the user's lifestyle.

COMMON NEW FEATURES

COMMON NEW FEATURES

New functions and equipment for a better user experience

TRUMA iNET X SYSTEM

Control your utilities remotely
with your smartphone

Compressor refrigerator

Improved performance
More autonomy

Double battery system

Integrated system
with more autonomy

On-board TEKNiBox

Userfriendly daily
maintenance

COMMON NEW FEATURES

Truma iNET X System

**Start smart.
Be smart.
Stay smart.**

*K-Yacht Tekno Line and Krosser standard
Kea option*

✓ The intelligent, comfortable and safe vehicle

The iNetX system gives you total control over all your motorhome's devices and utilities (climate, hot water and other functions), with a central control panel which enables you to monitor all status indicators in real time.

✓ Easy to use and customisable

User friendly control panel with colour touchscreen display.
Can also be used while the motorhome is driving.
Advanced control with your smartphone: control the device remotely with the Truma iNet X smartphone app (up to 10 metres from the vehicle).
You can even customise the app interface to suit your personal requirements.

✓ Reliable and upgradable

We are continually updating our systems to improve their quality.
The system can be upgraded with new functions and additional features, even after installation.
Troubleshooting assistance with precise descriptions of faults and practical suggestions on how to resolve them.

COMMON NEW FEATURES

Compressor refrigerator

K-Yacht Tekno Line and Krosser standard
Kea option (158 litres) *

THE LARGEST REFRIGERATOR ON THE MARKET

174 Litres

- Cooler and faster 

The refrigerator quickly cools down to the desired temperature with the FAST start option.
- Unaffected by the heat. 

Hot weather does not affect its performance.
- You choose how you use it. 

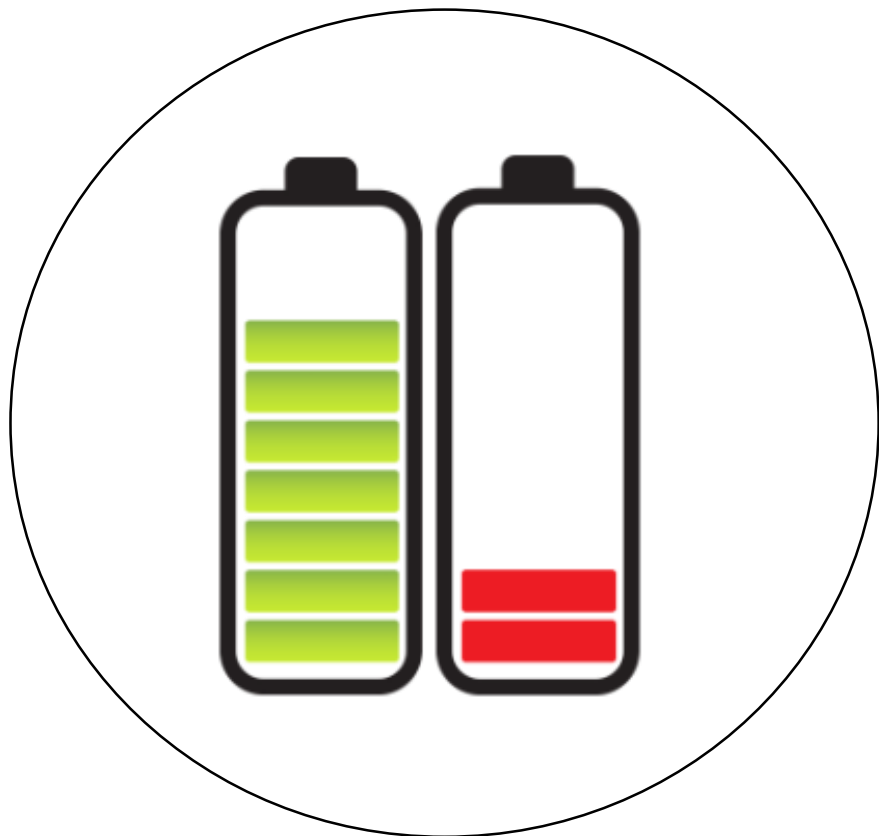

It has separate functions to activate the refrigerator and freezer, turning the latter into a "cool" compartment
- Smart energy consumption. 

It works like the one at home, meaning the compressor runs for a few minutes every 15-20 minutes. This results in considerable energy savings: the system works only 10-20 minutes every hour and not 24 hours a day!

* K-YACHT TEKNO LINE and KROSSER: Model Thetford T2175 - KEA Model Thetford T2160

COMMON NEW FEATURES

Double battery system

✓ When your energy needs increase!

Automatic changeover switch for separate control of two utility batteries, even of different types and charge capacities, thus improving the system's efficiency and keeping it in good condition.

✓ Battery disconnecter

The battery disconnecter, automatic or manual, prevents the battery draining below its specified minimum charge, which can often happen in normal use or due to small continuous charges when in storage.

✓ With microcontroller

The microcontroller continuously monitors the status of the two batteries and their input and output voltages and current.
Battery management up to 2000W input/output

K-Yacht Tekno Line, Krosser and Kea standard

COMMON NEW FEATURES

On-board TEKNIbox

For daily maintenance

Easy access to the most important controls

All electrical utilities in a single location

USER FRIENDLY

K-Yacht Tekno Line, Krosser and Kea standard

COMMON NEW FEATURES

Restyled compact bathroom

K-Yacht Tekno Line 64
Krosser 64
Kea 64

New waterproof curtain

Sliding shower curtain with rail.

Improved locking system with mechanical push-lock

Locks the wall in place in the toilet position. The closure system is now magnetic. In the shower position, the wall is locked in place by a cord with buttons concealed behind the door.

**NEW FEATURES
FOR SEASON 2024**

COMMON NEW FEATURES

POP-UP roof

	MODEL	COLOUR	POP-UP roof
 <p>5.99 m</p>	K 5.1	BLACK	Option available
 <p>6.36 m</p>	K 6.3	BLACK	Option available <u>only with 3 homologated seats</u> NEW
 <p>6.36 m</p>	K 6.5	BLACK	Option available <u>only with 3 homologated seats</u> NEW

COMMON NEW FEATURES

Openable panoramic roof

Open point: Can it be kept open while driving?

Improved air circulation

The panoramic roof opens up on one side at the top.
It opens partially.
It is fitted with a high strength gasket.

Combines with the pop-up roof.

Elegant, automotive style design

Tested for draughts.

Tested with a 2 bar air jet around the entire perimeter of the panoramic roof and combined pop-up roof.
No openings or holes allow draughts to penetrate internally.
Next step: check the tightness of the panoramic roof on rough roads

WINTER PACK

Standard on the entire range

**INSULATED GREY WATER TANKS WITH
ANTI-FREEZING THERMOSTAT SENSOR**

COMMON NEW FEATURES

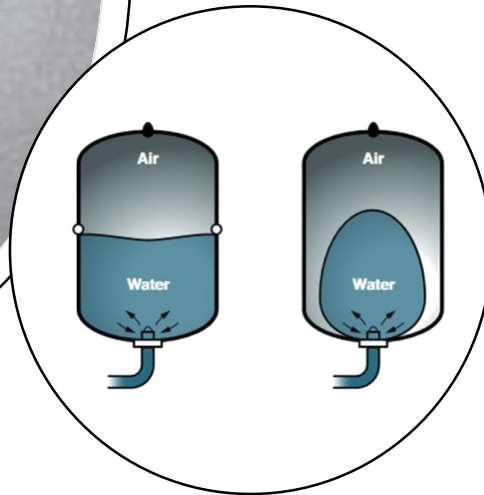

Expansion tank

Water and electricity saving

The expansion tank eliminates the intermittent functioning of pumps with pressure switch and supplies a constant flow of water as requested. It therefore reduces the overall water consumption.

Long life ...

for the pump and the boiler, along with a more efficient functioning. The internal membrane absorbs hammering and ensures a smooth flow of water.

Nuova radio optional

Caratteristiche:

Schermo 9" touch, schermo FLAT capacitivo, illuminazione RGB, schermata di avvio personalizzabile, ingresso retrocamera, ingressi USB & AUX, output video, compatibilità con comandi al volante, Apple CarPlay (USB/WiFi), Google Android Auto (USB/WiFi), Radio FM RDS / DAB+, Bluetooth (HFP/Audio), 4 x 50 W,, EQ 13 bande, 3 RCA, filtro audio e allineamento temporale.

Non serve più il cavo 

per connettere lo smartphone alla radio! AndroidAuto e AppleCarPlay funzionano anche tramite semplice collegamento wireless.

Si adatta alle condizioni di luce ...

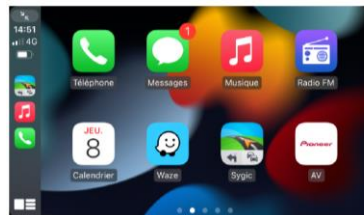

o alle preferenze dell'utente. Gestione di finestre multiple completamente personalizzabile trascinando e ingrandendo o rimpicciolendo a piacere i contorni delle finestre.

Con la retrocamera... 

In caso di retrocamera doppia funzione parcheggio/viaggio, si possono ovviamente ricevere sulla radio entrambi i segnali, ed è possibile switchare dall'uno all'altro tramite un semplice tasto.

Tutto schermo o doppia visualizzazione 

In maniera totalmente innovativa, si possono visualizzare contemporaneamente sullo schermo le APP e le funzioni di AndroidAuto / Apple CarPlay e la RADIO AM/FM/DAB.

2024 RANGE

INTERIORS: NEW FEATURES FOR THE KITCHEN

Wall unit doors

Better internal ergonomics.

Increased clearance and space for movement in front of the kitchen with the door is open.

Unchanged style and appeal.

The new solution perfectly fits into Admiral interior design

No loss of storage space.

The smaller door does not affect the unit's storage capacity. The bottom section of the door turns into a handy shelf for small objects.

The change will be introduced early in 2023

INTERIORS: NEW FEATURES FOR THE KITCHEN

Pull-out basket

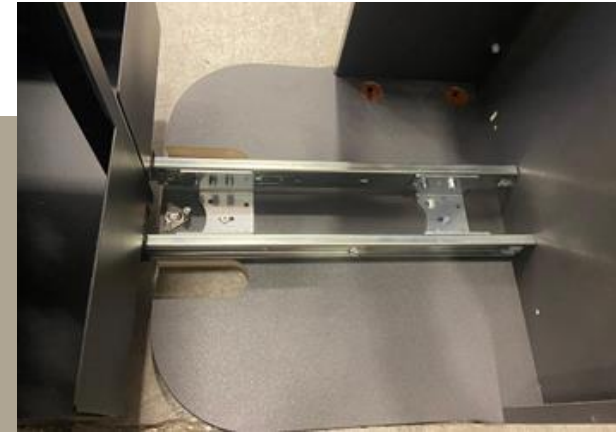

A more robust pull-out basket design

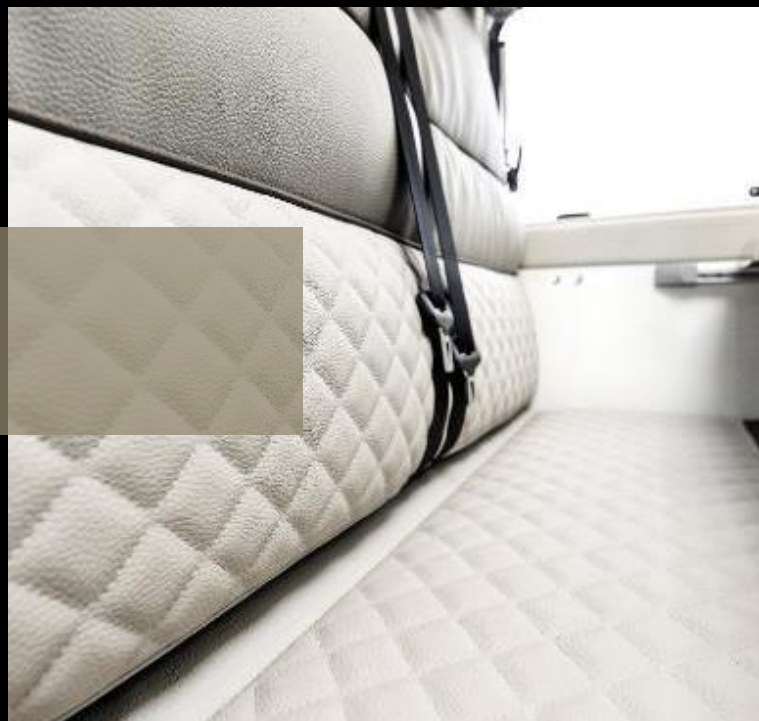

A new design and more robust rails for the pull-out side basket makes the unit stronger and more stable and ensures a long-lasting use
